

GREEN and BLUE LASER POINTERS

- Green laser pointers (532 nm) are ideal for presentations, they are 30 times brighter and much more visible to the human eye than red pointers. They operate with two “AAA” batteries and are available with 1 mW or 3 mW output and two housing colors.
- Another model includes also a pen and a USB charger with 2 GB memory (no batteries are required).
- The “Blue” pointer is an ultra-violet diode laser (405 nm). It may also be used in presentations providing a bright blue-color spot when projected.

	Qty	
Green laser pointer (< 1 mW) 165 CHF incl. MWST)	Silver	
	Navy Blue	
Green laser pointer (< 3 mW) 195 CHF incl. MWST)	Silver	
	Navy Blue	
Green laser pointer including pen and USB 2GB (< 3 mW) 215 CHF (incl. MWST)	Black	
“Blue laser pointer (< 12 mW) 285 CHF (incl. MWST)	Black
